

Text for Parents on Dyslexia: The Revolutionary New System Proven to Help

If your child struggles with reading, writing, or spelling, they may have dyslexia. Dyslexia is a learning disability that affects the way the brain processes language. It is not a sign of intelligence, and it does not mean that your child is not capable of learning. In fact, many people with dyslexia are highly intelligent and successful. The key is to find the right approach to learning that works for your child.

Dyslexic Not Daft, The Way Forward: A text for parents on Dyslexia and the revolutionary new system proven to help. by Christine Chenery

This book will provide you with everything you need to know about dyslexia, including:

- What is dyslexia?
- How is dyslexia diagnosed?

- What are the different types of dyslexia?
- What are the symptoms of dyslexia?
- How can dyslexia be treated?

This book will also introduce you to a revolutionary new system that has been proven to help children with dyslexia learn to read, write, and spell. This system is based on the latest research on how the brain learns to read. It is a multisensory approach that engages all of the senses to help children learn.

This book is a must-read for any parent of a child with dyslexia. It will provide you with the information and tools you need to help your child succeed.
